

IP MANAGER

MECHANICS / ENGINEERING / HIGH-TECH

MALMÖ, SWEDEN

Operating at the global forefront of sustainable technologies, our client has devoted itself to accelerating and enabling a truly sustainable society. This Finnish-founded enterprise delivers technologies, end-to-end solutions, and services for the aggregates, minerals processing and metals refining industries on a global scale; improving productivity and reducing environmental risk for customers worldwide.

Over the past 25 years, the company has grown to a global powerhouse; operating across 50 countries and employing 17,000+ professionals driving sustainable solutions. At the cutting edge of innovation, the company recognizes the strategic value of IP in driving business forward.

Now, the company is looking to welcome an IP Manager to the team in Malmö. This role is an exciting opportunity to:

Work at the forefront of new technologies: You will have the opportunity to apply your IP expertise to cutting edge sustainability solutions.

Shape and drive an exciting portfolio: Take ownership of a substantial global portfolio, honing your strategic skills and championing IP as an effective business tool.

Become an integral part of a dynamic, influential IP team: You will work closely with engineers at the top of their field, alongside marketing teams and senior leaders across the business. This role presents the chance to become a highly influential and visible IP colleague with oversight of global external counsel.

If you have a background in Mechanics or associated fields, alongside detailed technical knowledge and experience with the full spectrum of IP matters then we would love to hear from you.
