

# Ström & Gulliksson

European Patent Attorney

Stockholm, Sweden

## Live Life To The Full!

### Who is Ström & Gulliksson?

Ström & Gulliksson is a top-tier European patent firm based in Sweden. Since 1975, the business has combined patent services and legal services, working in close association with Advokatbyrån Gulliksson. To this day, we still share office space to make it easier to offer a full range of IP services to our clients, from patent preparation, patent prosecution, patent litigation and strategic patent counselling. During legal proceedings, the patent attorneys of Ström & Gulliksson and the attorneys-at-law of Advokatbyrån Gulliksson commonly work together as a close-knit team.

### What is a Ström & Gulliksson Patent Attorney?

Ström & Gulliksson patent attorneys are business-minded with a profound technical knowledge who are passionate about patent law. Our clients are our primary focus! Through commitment and dedication, our people carry out non-contentious as well as contentious patent work in the creation of value for the companies we serve. We are ambitious, dedicated and commercially astute when it comes to helping organisations navigate the intricacies of patent law.

### Where is the position based?

The position would be based at our offices in Stockholm, where we have seen year-on-year growth over the last seven years, and which employs 5 patent attorneys and 2 paralegals, a high ratio of which are qualified patent attorneys in EP, SE and UK. For those of you who are new to Stockholm, the capital is one of the world's most beautiful cities and a world leader when it comes to innovation. Its growing economy accounts for its increasing popularity with internationals as a place to settle.

### Why become a Ström & Gulliksson Patent Attorney?

There is no ceiling to your development and career progression. Ström & Gulliksson is a partnership and it rewards those attorneys who provide commitment and ambition. The firm offers reasonable working hours, reasonable billing targets based on knowledge and experience, a focus on quality, and a possibility to be involved in contentious patent work, all within one of the world's most beautiful cities.
