

IP MANAGER

HOOFDDORP, NEAR AMSTERDAM,
THE NETHERLANDS

INDUSTRY LEADERS

Sonion was founded in 1974 by Jørgen Weber Jensen and Jens-Jørn Stockholm in a small apartment in Roskilde, Denmark. Since then, it has grown into an international, global leading company employing more than 6000 employees across Denmark, the Netherlands, Poland, Vietnam, the Philippines, US and China. Their work helps over 40 million people every year and their innovative technologies support and enhance people's quality of life. Sonion is one of the world's leading manufacturers of hearing aid components and also supplies solutions that are embedded into millions of professional audio devices worldwide.

A PIVOTAL ROLE

This is an exciting time to join the IP department within Sonion, particularly in this unique position. As the IP Manager, you will be the champion for IP within this international company. You will bring knowledge and expertise, work across various departments and drive the profile of IP within Sonion. This is a chance to bring your expertise and build a strategic plan, working at the inception of innovation through to business strategy and implementation.

JOIN THE SONION TEAM

Ideally, you will be a qualified European Patent Attorney, although this is not essential. Your background will be in Electronics or related, and align with Sonion's technologies. Your experience will benefit the seniority of the position, and you will possess strong commercial and business skills. Working alongside key stakeholders, you will evolve Sonion's strategic IP plans and champion IP across the company. If you are ready to seize this unique position then Sonion very much look forward to hearing from you!
